

Student Appearance and Dress

Logan City School District believes that high standards of personal grooming and dress contribute to a positive learning/teaching environment.

- Adherence to appropriate dress and grooming expectations is the responsibility of the student and parents
- Case law provides discretion for building administrators when defining inappropriate dress
- Enforcement of the standards is the responsibility of the parents, school staff, and administration
- Each school will develop guidelines and implementation procedures under this policy
- School dress and personal grooming should be appropriate for the educational experience and school activity
- Clothing which does not detract from nor interfere with appropriate school conduct, safety, and participation shall be considered proper school attire
